ABOUT IIIT NAYA RAIPUR

The International Institute of Information Technology, Naya Raipur (IIIT-NR), was established by the Government of Chhattisgarh with a mission to achieve excellence in higher education, research, and development in Information Technology (IT) and related fields. The institute is dedicated to the dissemination of knowledge and the cultivation of entrepreneurial skills among its students, empowering them to tackle real-world challenges effectively.

ABOUT HACK-A-SOL 4.0

Hack-A-Sol is the flagship annual hackathon of IIIT-Naya Raipur (IIIT-NR), a dynamic blend of innovation, creativity, and collaboration.

- It unites brilliant minds from across India, all driven by a passion for technology and problem-solving.
- With over 2000 participants, including students, developers, and tech enthusiasts, the event fosters hands-on innovation through real-world challenges.
- Beyond competition, it serves as an ecosystem of ideas, where teams experiment, innovate, and build impactful solutions.
- Hack-A-Sol 4.0 aims to ignite curiosity, nurture creativity, and empower future tech leaders to create solutions that leave a lasting impact on society.
